PRESS RELEASE

PackExpo: Sustainable all-cardboard blister pack

Heilbronn, Germany, August 5, 2021 – *At PackExpo Las Vegas, Nevada USA, from September 27 to 29, ILLIG will be demonstrating how the production of sustainable, all-cardboard blisters from recycled materials with different designs and contents on a single packaging system. Because less is more: reduce – reuse – separate – recycle – renew.*

At booth 5963 in the South Lower Hall at the Las Vegas Convention Center, ILLIG will be presenting the latest packaging system of the HSU 35b series. The system is suitable for safe and sustainable blister packaging made of cardboard-plastic cardboard combinations (double card blister) or solid cardboard for non-food products. The economical and efficient HSU 35b is designed for variable blister heights and can be configured with 3, 6, 8, 10, or 12 transport pallets for any application. The compact machine adapts to the individual requirements of packaging manufacturers with numerous equipment features. Examples include automatic product feeding, product presence control, product inlay, inserts for brochures, marking systems, code readers, and blister lifters. ILLIG packaging systems are modular, flexible, and efficient, allowing brand owners and co-packers the freedom to design sustainable packaging for a variety of end markets.

About ILLIG

ILLIG is a leading global supplier of thermoforming systems and tool systems for thermoplastics and cardboard. The company's product and services portfolio includes the development, design, manufacture, installation and commissioning of complex production lines and components. With the unique packaging development, "Pactivity® 360", and high-performance packaging systems, ILLIG supplies its customers with resource-friendly and sustainable solutions, and supports packaging manufacturers in design for recycling. With its own subsidiaries and sales agencies in over 80 countries, ILLIG is locally present in all markets around the globe. For 75 years, the family business has been serving its customers across the globe as a reliable partner for the cost-effective manufacturing of complex precision parts with innovative technology of unsurpassed quality and comprehensive global service.
